

# How to Move the Needle on Student Success Next Semester

Tuesday, June 28

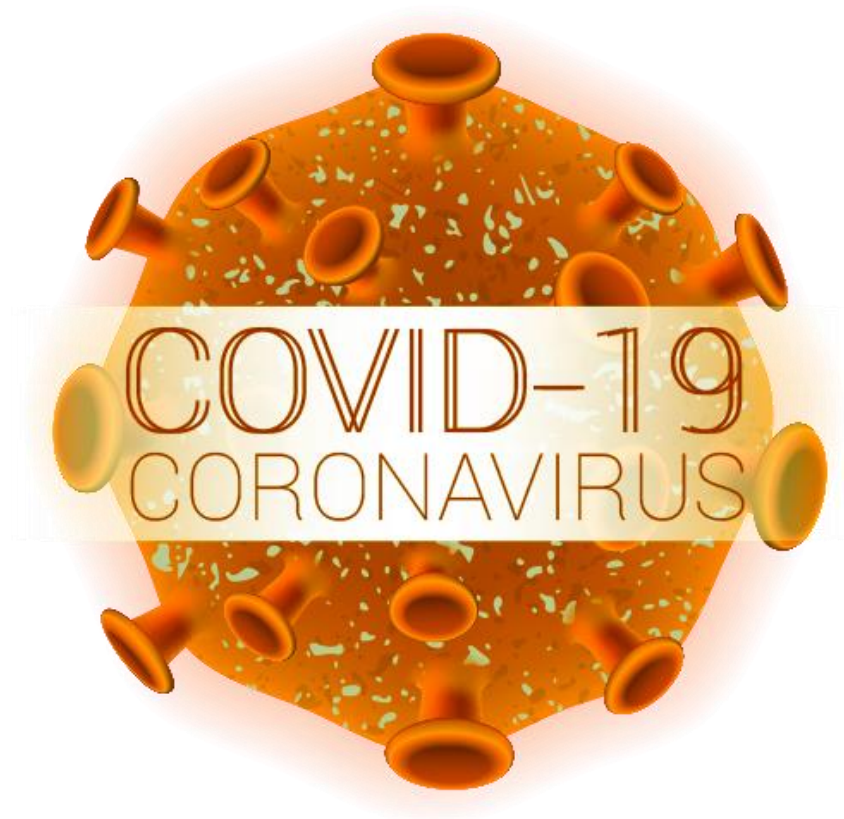

*An Inside Higher Ed* webcast

2 p.m. Eastern

# Presenters

- Scott Jaschik, editor, *Inside Higher Ed*, [scott.jaschik@insidehighered.com](mailto:scott.jaschik@insidehighered.com)
- Doug Lederman, editor, *Inside Higher Ed*, [doug.lederman@insidehighered.com](mailto:doug.lederman@insidehighered.com)

# Impact of the Pandemic (and Remember That the Pandemic Didn't Create This Issue)

# Student Success Is Everyone's Issue

--Cal State Northridge

# What Is Student Success?

- Completion and graduation
- Persistence
- Graduation in four? (or two for a community college?)
- Who is completing?
- Mental health
- Happiness
- After college

# Measuring Student Success

- Statistics on what students are doing
- Surveys of students
- Anecdotes

# A Supportive Syllabus

# Connecting With Professors

“I walk in and can tell in one second that he does not want me there. Do you think I ever went back for office hours? No. And I can still see his face when I walked in that room.”

--Joe Hoyle, recalling his first experience with office hours, in the 1960s.

# The Broad Role of Professors

- Is more than teaching their subjects (however important that is).
- Isn't something that they were trained to do.

# Minority Groups

- Do they graduate at the same rates?
- Do they have mental health needs? (Do they use campus resources?)
- Are they happy?
- Do they report incidents of racism?

# Students Who Are Parents

-Lee Choo

# Students With Disabilities

- Start by assuring all of your students with disabilities have their legal rights met.
- But don't end there.

# Online Education (and Remote)

--RawPixel

# Q&A

# With Thanks
